

ViPrint™ Starwhite & Eclipse: For the POS & Sign market, Naturally!

Axipack launches Viprint Starwhite and completes its range for POS and display markets!

It is **THE ideal solution for your applications such as display, poster, banners for hanging signs, roll up banner!** (Samples available on request).

ViPrint Starwhite is a polypropylene sheet which is characterised by the colour 1107 white with improved opacity, its weight (30% less than PVC), its price point, its availability from 500 kg with two surface choices G01 and G02. ViPrint Starwhite is naturally positioned alongside our ViPrint Eclipse white 1170, with 100% opacity and available from 1000 kg, Embossed with our G01 surface.

Ecological, both Starwhite and Eclipse are 100% recyclable!

To suit all your needs ViPrint Starwhite and Eclipse are available as made to order and also as part of our stock service range!

With ViPrint™, we stay ahead of the trend!

The entire sales team is at your disposal to answer your questions.

We look forward to hearing from you soon,
The Marketing Department
